

DOT Pipeline Compliance Services

Meet DOT requirements, from the ditch to the desktop.

When you engage American Innovations to provide DOT Pipeline Compliance Services, you're getting more than just a review of your manuals and procedures. We offer experienced pipeline consultants who combine our unique suite of field data collection, pipeline compliance and risk software solutions with decades of experience navigating regulatory change in the field and the office.

Our DOT Pipeline Compliance services include gap analysis, gap follow-up, audit assistance and custom services. Depending on your needs, we provide you with:

- Clear guidance on what regulation and compliance trends mean for your company.
- Straightforward reports and engaging trainings that your field and office staff will remember.
- Smooth interaction with federal and state inspectors to protect your privacy while gathering the information needed to make sure your operations are compliant with new regulations.

DOT Pipeline Compliance Services

Key Benefits

Tailored Recommendations

Our experience working with operators and auditors across the industry lets us easily identify the compliance trends that matter for your organization.

Training

Once familiar with your manuals and procedures, we'll help your team make any changes needed to achieve or maintain compliance.

Scalability

Whether your project is small or large, our department of consultants is standing by to keep you compliant.

Privacy

Skilled facilitators, our consultants are adept at discussing your questions and concerns with auditors while maintaining your privacy.

Gap analysis: When you engage us for a gap analysis, we'll identify any areas in which you're open to a DOT citation. This can include a review of your procedures for DOT-regulated programs related to:

- Integrity management
- Operations and maintenance
- Design / construction
- Operator qualification
- Public awareness
- Damage prevention
- Drug and alcohol

Gap follow-up: Our expert consultants are standing by to help you correct or improve your programs and procedures. They're also ready to train your office and field personnel as needed.

Audit assistance: To make sure you're ready for an audit, we'll simulate a federal or state evaluation of your programs, records and field procedures. Our simulations support compliance with 49 CFR 191, 192, 194 and 195.

Custom services: If you're looking for a DOT Pipeline Compliance Service that's not listed above, [contact us](#). We'll be happy to discuss how we might help.

Our pipeline consultants deliver rigorous analysis, experience-based insight, and the communication skills needed to consolidate their findings into clear, useful reports and training programs.
